| 2.NBT | NUMBER AND OPERATIONS IN BASE TEN |  |  |  |
|  | Understand place value. |  |  |  |
| 2.NBT. 1 | Understand that the three digits of a three-digit number represent amounts of hundreds, tens, and ones; for example, 706 equals 7 hundreds, 0 tens, and 6 ones. Understand the following as special cases: |  |  |  |
| a. | 100 can be thought of as a bundle of ten tens called a "hundred." | 38, 39 |  |  |
| b. | The numbers $100,200,300,400,500,600,700$, 800, 900 refer to one, two, three, four, five, six, seven, eight, or nine hundreds (and 0 tens and 0 ones). | 38-41 |  |  |
| 2.NBT. 2 | Count within 1,000; skip-count by fives, tens, and hundreds. |  | $\begin{aligned} & 72 \\ & \text { SB: 30-1 } \end{aligned}$ |  |
| 2.NBT. 3 | Read and write numbers to 1,000 using base-ten numerals, number names, and expanded form. | $\begin{aligned} & 39-49,74 \\ & \text { SB: } 5-1,5-3,7-1, \\ & 8-1,8-2 \end{aligned}$ |  |  |
| 2.NBT. 4 | Compare two three-digit numbers based on meanings of the hundreds, tens, and ones digits, using >, =, and < symbols to record the results of comparisons. | SB: 9-6 |  |  |
|  | Use place value understanding and properties of operations to add and subtract. |  |  |  |
| 2.NBT. 5 | Fluently add and subtract within 100 using strategies based on place value, properties of operations, and/or the relationship between addition and subtraction. |  | $\begin{aligned} & 41-48,50-65 \\ & \text { SB: } 20-1,21-1,22- \\ & 1 \text { to } 22-3,24-1 \text { to } \\ & 24-3,25-1 \text { to } 25-3 \text {, } \\ & 26-1 \text { to } 26-4 \end{aligned}$ |  |
| 2.NBT. 6 | Add up to four two-digit numbers using strategies based on place value and properties of operations. |  | $\begin{aligned} & 49 \\ & \text { SB: 23-1 } \end{aligned}$ |  |
| 2.NBT. 7 | Add and subtract within 1,000 using concrete models or drawings and strategies based on place value, properties of operations, and/or the relationship between addition and subtraction; relate the strategy to a written method. Understand that in adding or subtracting three-digit numbers, one adds or subtracts hundreds and hundreds, tens and tens, and ones and ones, and that it is sometimes necessary to compose or decompose tens or hundreds. |  | 77, 78 <br> SB: 22-4, 25-4 |  |
| 2.NBT. 8 | Mentally add 10 or 100 to a given number 100-900, and mentally subtract 10 or 100 from a given number 100-900. |  | $\begin{aligned} & \text { 45, } 54 \\ & \text { SB: } 21-1 \end{aligned}$ |  |
