Counting and Cardinality			
NY-K.CC.	Know number names and the count sequence.		
1.	Count to 100 by ones and by tens.	4, 77, 172, 174	10-4
2.	Count to 100 by ones beginning from any given number (instead of beginning at 1).	75	
3.	Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20 (with 0 representing a count of no objects).	44, 46, 48, 49, 52, 54, 56, 66, 68, 70, 72, 74, 76, 84, 86, 164-168	5-1, 5-2, 5-5, 6-1 to 6-6, 10-1 OR K-5, K-6, K-10
NY-K.CC.	Count to tell the number of objects.		
4.	Understand the relationship between numbers and quantities up to 20; connect counting to cardinality.	44, 45, 47, 49-53, 55, 65, 67, 69, 71, 73, 75, 78-80, 82, 85, 169	7-2, 10-2
a)	When counting objects, say the number names in the standard order, pairing each object with one and only one number name and each number name with one and only one object. (1:1 correspondence)	15-21, 42, 45, 47, 49-53, 55, 57, 58, 65, 67, 69, 71, 73, 75, 82, 85	2-1, 3-1 OR K-7
b)	Understand that the last number name said tells the number of objects counted, (cardinality). The number of objects is the same regardless of their arrangement or the order in which they were counted.	47, 49-51, 53, 55, 57, 58, 65, 67, 69, 71, 73, 75, 76, 82, 85	
c)	Understand the concept that each successive number name refers to a quantity that is one larger.	47, 49-51, 53, 55, 57, 58, 65, 67, 69, 71, 73, 75, 76, 78-80, 82, 85	
d)	Understand the concept of ordinal numbers (first through tenth) to describe the relative position and magnitude of whole numbers.	59, 60	9-1 OR K-9, K-17
5a.	Answer counting questions using as many as 20 objects arranged in a line, a rectangular array, and a circle. Answer counting questions using as many as 10 objects in a scattered configuration.	57, 73	

		Lesson Plan Page <i>(located in Teacher Resource Manual)</i> & Student Activity Book Page	Skill Builder Page & Oral Review (OR) (located in Teacher Resource Manual)
5b.	Given a number from 1–20, count out that many objects.	43,45, 47, 49, 51, 53, 55, 57, 65, 67, 69, 71, 73, 83, 85, 165-168	5-4, 7-1
NY-K.CC.	Compare numbers.		
6.	Identify whether the number of objects in one group is greater than (more than), less than (fewer than), or equal to (the same as) the number of objects in another group. Note: Include groups with up to ten objects.	15-21, 50, 87, 143	2-1, 3-1, 3-2, 8-1 to 8-3, 28-1 OR K-2, K-3, K-5, K-8
7.	Compare two numbers between 1 and 10 presented as written numerals.	170	
Operations and Algebraic Thinking			
NY-K.OA	Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from.		
1.	Represent addition and subtraction using objects, fingers, pennies, drawings, sounds, acting out situations, verbal explanations, expressions, equations, or other strategies. Note: Drawings need not show details, but should show the mathematics in the problem.	120-129, 134-144, 146, 147	26-1, 26-2, 27-1, 27-2, 28-1, 29-1 OR K-26 to 28
2a.	Add and subtract within 10.	119-129, 131, 134-142, 147	26-2, 27-2
2b.	Solve addition and subtraction word problems within 10.	119-126, 130, 133-142, 145	OR K-27 to 29
3.	Decompose numbers less than or equal to 10 into pairs in more than one way. Record each decomposition with a drawing or equation.	52, 54, 57, 65, 67, 69, 71, 73, 128	
4.	Find the number that makes 10 when given a number from 1 to 9. Record the answer with a drawing or equation.		26-5
5.	Fluently add and subtract within 5.	147	
NY-K.OA	Understand simple patterns.		
6.	Duplicate, extend, and create simple patterns using concrete objects.	13, 22, 35, 38, 81, 100, 172, 174	4-1 to 4-3 OR K-4
Number and Operations in Base Ten			
NY-K.NBT	Work with numbers 11–19 to gain foundations for place value.		
1.	Compose and decompose the numbers from 11 to 19 into ten ones and one, two, three, four, five, six, seven, eight, or nine ones.	165-168, 171	
Measurement and Data			

		Lesson Plan Page <i>(located in Teacher Resource Manual)</i> & Student Activity Book Page	Skill Builder Page & Oral Review (OR) (located in Teacher Resource Manual)
NY-K.MD	Describe and compare measurable attributes		
1.	Describe measurable attributes of an object(s), such as length or weight, using appropriate vocabulary.	30-32, 106-115	
2.	Directly compare two objects with a common measurable attribute and describe the difference.	12, 14, 30-32, 106-115	14-1, 14-2, 20-1, 21-1, 21-2 OR K-14, K-20, K-21
NY-K.MD	Classify objects and count the number of objects in each category.		
3.	Classify objects into given categories; count the objects in each category and sort the categories by count. Note: Limit category counts to be less than or equal to 10.	2, 3, 11-13, 26, 34	13-1, 13-2 OR K-13
4.	Explore coins (pennies, nickels, dimes, and quarters) and begin identifying pennies and dimes.	97-99, 101, 172	24-1, 25-2 OR K-24
	Geometry		
NY-K.G	Identify and describe shapes (squares, circles, triangles, rectangles, hexagons, cubes, cones, cylinders, and spheres).		
1.	Describe objects in the environment using names of shapes, and describe the relative positions of these objects using terms such as above, below, beside, in front of, behind, and next to.	1, 7, 9, 27-29	12-1, 12-2, 12-4 OR K-12
2.	Name shapes regardless of their orientation or overall size.	27-29, 37, 39	OR K-15, K-16
3	Understand the difference between two-dimensional (lying in a plane, “flat”) and three-dimensional (“solid”) shapes.		16-3
NY-K.G	Analyze, compare, sort, and compose shapes.		
4.	Analyze, compare, and sort two- and three-dimensional shapes, in different sizes and orientations, using informal language to describe their similarities, differences, parts, and other attributes.	27-29, 34, 37, 39, 64	13-1, 15-3, 16-1, 16-4 OR K-13, K-15
5.	Model objects in their environment by building and/or drawing shapes.	35	15-2
6.	Compose larger shapes from simple shapes.	64, 65, 117	29-2 to 29-6
